

WV HIPP

The West Virginia Health Insurance Premium Payment Program

The WV Health Insurance Premium Payment (HIPP) program is sponsored by the West Virginia Bureau for Medical Services. It helps increase the number of Medicaid recipients covered by commercial health insurance. It may even cover out-of-pocket expenses for Medicaid enrollees.

To prequalify, an applicant must have access to self-funded, employer-sponsored, or COBRA insurance and should have one or more Medicaid recipients in the household. Individuals may apply for HIPP at any time of the year, even outside of their employer's open enrollment period.

Refer Medicaid recipients to HIPP. Ask them to visit www.MyWVHIPP.com for more information and to apply online.

Those interested may also contact HIPP by phone toll-free at 1-855-MyWVHIPP (1-855-699-8447).
